A Brief Report on the Work of the Control Yuan

January-December, 2006

The Control Yuan, Taiwan, Republic of China

Preface

With the development of democratic politics and the surging awareness of sovereignty lying in the people, and the expectations by the public of a clean and incorruptible government and elevating administrative efficiency, the Control Yuan has faithfully exercised their powers independently and impartially. The Yuan receives and handles people's complaints, investigates the malfeasance and dereliction of duty in government agencies, proposes corrective measures and impeaches public functionaries who break the law, making social justice prevail and promoting a clean and competent government.

Because the term of the 3rd Control Yuan members expired on January 31, 2005 and the 4th Control Yuan members have been vacant since February 1 of the same year, some duties and functions of the Control Yuan

were not normally carried out during this period. However, we still increase on-the-job training to enhance staffs' capabilities, deal with affairs in the work plan that can be managed before the inauguration of the 4th Control Yuan members, and make appropriate plans for the work related to control powers exercising.

Some doubts about the Control Yuan's functions and performances have emerged recently, which means that some people of our society don't sufficiently understand the Control Yuan's roles and functions, and also reveals that we have huge working space to promote our work. As a result, we set up the Control Yuan Exhibition Area, encouraging the public, institutions and groups, and schools to make a visit. In addition, during the period of the 4th members vacancy, the Control Yuan assigns staffs to counties (cities), institutions, town halls, schools, and community colleges to promote our functions and powers so as to reinforce people's understanding of control powers.

This brief report is an annual summary of the work of the Control Yuan in the year of 2006, including an outline of the organization, acceptance of people's petitions, investigation, impeachment, corrective measures, circuit supervision and inspection, invigilation, acceptance of assets report by public functionaries, conflict of interest prevention, reports of political donations, audit, human rights protection, international interactions, matters and measures taken before the inauguration of the 4th Control Yuan members, and statistics and analyses on exercise of control powers of the 3rd Control Yuan members. Statistics on the exercise of control powers is also tabulated for the readers' reference at the end of the report.

From January to December in 2006, the Control Yuan has received 5,785 complaint cases and also conducted in-depth researches and inspections to find out the crux of the problem so as to be the reference for the 4th Control Yuan members on exercising their powers afterward.

Looking into the future, how to actively display the supervision functions in the vastly changed political, economic and social environment so as to understand the performance of public functionaries and remove administrative difficulties and to protect the basic rights and interests of the public shall be our primary endeavor. We profoundly look forward to the straightaway inauguration of the 4th Control Yuan members for the purpose of exerting the rights empowered by the Constitution and fully developing our fine tradition of the Control system.

A Brief Report on the Work of the Control Yuan Republic of China January-December, 2006

I. Outline of Organization

According to the revised Organic Law of the Control Yuan and the Organic Law of the Committees of the Control Yuan, promulgated on January 7, 1998, the Control Yuan shall establish a department of supervisory operations, a department of supervisory investigation, a department of assets report by public functionaries, a secretariat, a general planning office, an information office, an accounting office, a statistics office, a personnel office, an ethics office, and seven standing committees on internal and minority nationality affairs, foreign and overseas Chinese affairs, national defense and intelligence affairs, financial and economic affairs, educational and cultural affairs, communication and procurement affairs and judicial and prison administration affairs. Besides, in keeping with related stipulations, the Control Yuan also sets up eight special committees on statutory studies, consultation, petitions review, human rights protection, anti-corruption, discipline for Control Yuan members, budget planning and execution, and international affairs.

According to the Organic Law of the Ministry of Audit and its general rules, the Control Yuan shall set up the Ministry of Audit (National Audit office) including various audit departments and offices as subordinate agencies.

Chart of administrative system

II. Functions and Powers

According to Article 7 of the Additional Articles of the Constitution, the Control Yuan shall have 29 members, including a president and a vice president, all of whom shall serve a term of six years. In accordance with this constitutional amendment, the members of the third Control Yuan, nominated and appointed by the President of the ROC with the consent of the National Assembly, began to exercise their powers on February 1, 1999.

The provisions of Articles 95, 96, and 97 of the Constitution of the Republic of China, and Article 7 of the Additional Articles of the Constitution of the Republic of China provide the Control Yuan with the powers of impeachment, censure, investigation, audit and proposing corrective measures. According to the Control Act, the Control Yuan and its members may accept petitions from the people, and its members may also make circuit supervision and inspections in different areas. The Examination Invigilation Act stipulates that when the government is to conduct an examination, except the ones which are held for determining the qualifications of the examinees, the Examination Yuan or the organization in charge of the examination shall invite the Control Yuan to dispatch officials for invigilation. Articles 2 and 4 of the Act on Assets Report by Public Functionaries prescribe that the following officials shall report their assets to the Control Yuan: President and Vice-President of the ROC; presidents and vice-presidents of the five Yuans; political appointees; paid presidential advisors, national policy advisors and war strategy advisors of the Office of the President; elected officers on and

above the level of township chief, and elected representatives on and above county / city level. Paragraph 2 of Article 10 of the Act on the Recusal of Public Functionaries Due to Conflict of Interest ordains that the Control Yuan be the organ to which the public functionaries shall notify in writing. Article 4 of the Political Donations Act stipulates that the Control Yuan be the institute to declare political contributions.

Since the term of the 3rd Control Yuan members has expired on January 31, 2005 and the 4th Control Yuan members have been vacant from February 1 of the same year, some duties were not normally carried out during this period. That leads to no statistics in some parts since then. The following is a brief account on the exercise of the present Control Yuan's functions and powers.

A. Acceptance of people's petitions

Article 4 of the Control Act provides that the Control Yuan and its members are entitled to accept petitions from the people. As petitions are the main sources for the exercise of control functions and powers, anyone who has detected malfeasance of public functionaries at central or local level government, or has found violation of law of the Executive Yuan and its subordinate agencies in government work and public facilities, is entitled to petition to or accuse before the Control Yuan or its members by submitting a detailed account of facts and related data.

The following is a classification of petitions received by the Control Yuan from the 3rd members (February 1999 - January 2005) to December 2006.

When a petition is received by the Control Yuan, it is first read by a member on duty. The Control Yuan will assign, by rotation, its member(s) to investigate the case if it warrants or commissions a related organization or its higher-up to look into the motion of the Control Yuan. After processing, the Department of Supervisory Operation of the Control Yuan will make a reply to the petitioner unless the petition is anonymous, lacks substance, or is a petition that has been rejected and raised again without the support of new evidence. The cases not replied will be kept on file for reference.

In 2006, the Control Yuan handled 5,663 petitions. Of these processed cases, 22, or 0.39%, were proposed investigation; 97 or 1.71% were complemented related data by the investigated organization; 1,540, or 27.20%, were referred to administrative organizations for reference; 1,259 or 22.23%, were concerned with legal or administrative redress procedure; 141, or 2.49% were out of jurisdiction; 356 or 6.29% were requested for further reference; 336, or 5.93% were lack of substantial evidence to process; 1,404, or 24.79%, were merged with other cases; and the remaining 508, or 8.97%, were processed in other ways. The cases handled in 2006 are formulated below.

Unit: case

B. Investigation

Articles 95 and 96 of the Constitution provide the Control Yuan with the power of investigation, which is the linchpin of the powers of control. By investigation, the Control Yuan can grasp the facts and the evidence of violations of the law or the misconduct by public functionaries and government agencies. The results of investigation will form the basis of impeachment, censure and corrective measures. The Control Yuan exercises its power of investigation in one of the following three ways: assigning a member or members to make the investigation, letting its members to investigate on their own motion, or commissioning an organization to do it. If a violation of law or misconduct is established, the original investigating member or other members shall initiate a proposal for impeachment or censure. If the case is not too serious, a committee may decide to let the related organization punish the violator directly. If the Control Yuan finds the Executive Yuan or one of its subordinate organs has done something wrong or any of its measures runs counter to the law, it may propose corrective measures to urge the related organization to correct itself.

The following is a tabulation of the cases investigated by the Control Yuan from the 3rd members (February 1999-January 2005) to December 2006.

C. Impeachment

Impeachment is a vital power of the Control Yuan for ensuring an honest government and rectifying government ethics. Both the Additional Articles of the Constitution and the Control Act empower the Control Yuan to impeach central and local government officials involved in dereliction of duty or other violations of law. A case of impeachment can be forwarded to the disciplinary agency only after it is proposed by at least two members, reviewed by more than nine other members and approved by at least a half of them. If the case involves criminal law or military law, it shall be referred to the competent judicial or military organization for action according to the law.

The following is a tabulation of the cases of impeachment from the 3rd members(February 1999-Januray 2005) to December 2006.

D. Censure

The power of censure is used when the Control Yuan deems that a law-breaking or derelict public functionary needs to be suspended from duty or be dealt with other immediate measures. The Control Act provides that a case of censure shall be reviewed by three or more members of the Control Yuan other than the initiating member(s) and approved by at least a half of them, and that the case shall be referred to the censured official's superior for action. If the case involves violation of the criminal code or military law, it shall be sent directly to the competent court or military court for action. If his or her official in charge or superior fails to act, or if two or more Control Yuan members deem the action taken is improper, a case of impeachment may be initiated. If the censured official is impeached, his or her higher-up in charge or superior shall be held responsible for the neglect of duty.

Since the 4th Control Yuan members have been vacant from February 2005 up to the present, there was no case of censure power exercised.

E. Corrective measures

Article 96 of the Constitution of the ROC stipulates that the Control Yuan, according to different subordinate organs of the Executive Yuan, shall set up various committees to supervise if there is any violation of law or derelict public functionary. Article 97 of the Constitution says, the Control Yuan, based on reviews and resolutions by various committees, may propose corrective measures and forward to the Executive Yuan and its subordinate organs for improvement.

Article 24 of the Control Act provides that the Control Yuan, after investigating the work and measures of the Executive Yuan and its subordinate organs, may propose corrective measures to the Executive Yuan or its subordinate organs for improvement if the proposed measure is examined and approved by related committees. Article 25 of the same Act and Article 20 of its enforcement rules set out that after receiving the demand for correction, the Executive Yuan or its related organs shall immediately make appropriate improvement or take actions and shall reply to the Control Yuan within two months. If it fails to reply to the Control Yuan in time about its improvement and action, the Control Yuan may, through a resolution by its related committees, question in writing or notify the responsible officials of the Executive Yuan or related organs to come to the Control Yuan for questioning. If the Control Yuan deems the reply of the Executive Yuan or related organs calls for further investigation, it may call upon related organs for explanation or ask the members in charge

of the original investigation or investigators to check out on the spot. If an executive organ is found procrastinating with pretenses and refuse to take appropriate action for improvement, it may initiate a proposal of impeachment against the head of the organ if the case is established by its investigation.

The following is a tabulation of the cases of corrective measures from the 3rd members (February 1999 - January 2005) to December 2006.

F. Circuit supervision and inspection

Article 3 of the Control Act says that members of the Control Yuan may conduct circuit supervision in different areas. The supervisory tour covers both central and local government agencies. The central level includes the Executive Yuan, the Judicial Yuan, the Examination Yuan and their subordinate organs. On the local level, the agencies to be supervised and inspected are the provincial government, the city governments under the direct jurisdiction of the Executive Yuan, the various county and city governments and their subordinate organs. The supervisory tours of the central government are conducted by Control Yuan members assigned by related committees in accordance with their necessities. The supervision and inspection of the Executive Yuan are conducted jointly by the conveners of various committees with the Committee on Internal and Minority Nationality Affairs as the organizer. The supervisory tours of the local governments are divided into twelve zones of responsibility according to the administrative division. Members for the supervisory teams are decided at the plenary meeting held on every December on rotation.

Article 3 of the Regulations Governing Circuit Supervision and Inspection stipulates the tasks of the supervisory tours as to see:

- (1) the execution of a government agency's administrative programs and budget.
- (2) the fulfilment of various major policies.
- (3) the performance of public functionaries.

- (4) the implementation of the cases of corrective measures.
- (5) the conditions of society and people's livelihood.
- (6) the handling of people's complaints and other related matters.

G. Invigilation

The Examination Invigilation Act provides that when the Examination Yuan or other organs hold examinations, except the qualification ones, it shall invite the Control Yuan or its field organs to dispatch invigilators. If the examination is conducted by organizing an examination committee, the Control Yuan shall be asked to send its members to serve as invigilators. If the examination is conducted by officials of the Examination Yuan or by a related organization it entrusts, the invigilation may be conducted by persons dispatched by the supervisory organ of the locality. If irregularities, such as oiling the wheels or exchanging test papers, are detected, the invigilators shall report the case to the Control Yuan for action according to the Act. After the examination is over, the invigilators shall file a report to the supervisory organization.

The following is a tabulation of invigilation by the Control Yuan dispatched personnel.

H. Acceptance of assets report by public functionaries

The Act on Assets Report by Public Functionaries was promulgated by the President of the ROC on July 2, 1993, and put into effect on September 1 of the same year. The Enforcement Rules of the Act were jointly enacted on August 20 of the same year by the Executive Yuan, the Examination Yuan and the Control Yuan. Some Articles of the rules have been revised in 1996, 2000 and 2002. The Department of Assets Report by Public Functionaries of the Control Yuan is now in charge of assets report by public functionaries. The following is a brief account on its operations:

1. Assets report

According to Articles 3, 5 and 7 of the Act on Assets Report by Public Functionaries and Articles 10, 21 and 21-3 of its enforcement rules, a public

functionary mentioned in the Act shall report his or her assets under the following conditions:

- (1) taking office : the report shall be made within three months.
- (2) regular report : which shall be made once a year between November 1 and December 31.
- (3) trust report : the report of real estate exceeding 6 million NT dollars, or listing stock exceeding 4 million NT dollars in total shall be made within one month after taking office.
- (4) property transaction report : the report of real estate transaction, exchange, or donation and stock trading exceeding 10 million NT dollars shall be made within the given time (two months).
- (5) property correction report : the report initiated by a public functionary to correct his or her former one, in which some information is at fault.
- (6) supplementary property report : the report requested by a report-receiving agency if it considers a public functionary report his or her property with dishonesty. The case will be disposed according to Article 11. If not on purpose, the public functionary will be informed to file supplementary reference before the deadline. Otherwise, the case will also be disposed according to the same Article. In 2006, the Control Yuan received assets report as follows:

- (1) All the 582 officials who took office reported their assets in time.
- (2) There were 985 officials requested by the law to report their annual

regular assets to the Control Yuan.

2. Review of assets report

Article 6 of the Act on Assets Report by Public Functionaries provides that a report-receiving agency shall review the report files and put them into volumes for public examination and reference within 45 days after they have been received. According to Article 5 of the Regulations Governing Examination and Browsing of Materials of Assets Report by Public Functionaries, the receiving agency shall make item-by-item checks based on the descriptions of the report.

3. Assets report inquiry

According to Article 7 of the Regulations Governing Examination and Browsing of Materials of Assets Report by Public Functionaries, if a public functionary is on suspicion of reporting his or her property untruthfully, the case, on the base of the Act on Assets Report by Public Functionaries, will be reviewed item by item. To ensure the genuine report, the Control Yuan has made regulations of addressing complaints and inquiries about public functionaries assets report. In 2006, the Control Yuan has inquired about 898 cases and found 483 cases are reported untruthfully.

4. Punishment of dishonest reports

To punish those public functionaries who fail to report their assets in time or truthfully, the Control Yuan shall impose fines and publish their names in accordance with the Act on Assets Report by Public Functionaries. In 2006, there is no case fined.

5. Publishing the reports in the gazette as open files to the public

According to the provisions of Articles 6 and 8 of the Act on Assets Report by Public Functionaries and Article 22 of its enforcement rules, the assets report of the President and Vice-President of the ROC, presidents and vice-presidents of the five Yuans, politically appointed officials, legislators, Control Yuan members, Taipei and Kaohsiung city councilors, magistrates and mayors shall be published regularly in government gazettes. The Act also requires legislators, Taipei and Kaohsiung city councilors to make public and send to the Control Yuan for publication in the gazette the detailed statements of their financial resources used for retaining assistants, renting offices and keeping cars within three months to make their assets public.

According to Item 1 of Article 6 of the Act on Assets Report by Public Functionaries, the approved report of each person shall be put in volumes, numbered, and well kept for public examination and reference.

6. Return and transfer of assets reports

Article 14 of the Act on Assets Report by Public Functionaries and Article 27 of its enforcement rules provide that if the report-requested official leaves his or her position and need not to report assets any more, the report file

shall be returned after a year through the organization where he or she has worked. If the official is dead, the file shall be returned to his or her spouse or closest relatives.

Article 28 of the Enforcement Rules of the Act on Assets Report by Public Functionaries stipulates that if the report-receiving agency changes resulting from a transfer of the official, the original receiving agency shall send the files to the new one.

The following is a tabulation on return and transfer of assets report by public functionaries from the 3rd members (February 1999 - January 2005) to December 2006.

I. Conflict of interest prevention cases

In order to promote clean and competent politics, government ethics, and to avoid corruption and unjust profits gaining, the President of the ROC has promulgated the Act on Recusal of Public Functionaries Due to Conflict of Interest in July 2000. In accordance with this Act, the Executive Yuan, the Examination Yuan and the Control Yuan jointly issued the enforcement rules to put them into effect in March 2002.

An explanation meeting is held to propagate the Assets Report by Public Functionaries and Conflict of Interest Prevention in Taichung City.

To comply with the Act and rules, the Control Yuan has carried on receiving, reviewing, investigating and punishing regulations about related cases to avoid the conflict of interest. Also, the Control Yuan has set up operation standards to address these cases.

J. Political Donations

In order to normalize and manage political contributions, promote civil political participation, protect fairness and justice of different political activities, and elevate the development of democratic politics, President of the ROC promulgated the Political Donations Act on March 3, 2004, and put into effect on April 2 of the same year.

An explanation meeting is held to propagate Political Donations in Hualien County.

The Department of Assets Report by Public Functionaries of the Control Yuan is in charge of the affairs to disclose political contributions. According to Articles 10, 14, 15, 16, 19, 20, 21, 24, 25, 26, 27 and 28, the Control Yuan is responsible for related matters as follows: (1) to approve of opening political accounts of political parties, political groups and candidates; (2) to approve of changing or closing political contribution accounts of political parties, political groups and candidates; (3) to handle candidates' disclosures of accounting reports and put in volumes and issue in the gazettes or post on the website; (4) to accept candidates' balance reports of the

political contribution accounts; (5) to review accounting report of political contributions disclosed by political parties, political groups and candidates; (6) to impose fine on violation of the Political Donations Act, to forward fined cases to administrative execution if delay to pay the fine, and to make replies aiming at those suing cases; (7) to handle the affairs of demanding and returning payment to the treasury of the fined cases against the Political Donations Act.

K. Audit

According to Article 7 of the Additional Articles of the Constitution, the power of audit shall be part of the control powers. Article 104 of the Constitution sets forth that the Control Yuan shall have an auditor-general, who shall be nominated and appointed by the President of the ROC, with the consent of the Legislative Yuan. Article 1 of the Control Act, Article 4 of the Organic Law of the Control Yuan and Article 3 of the Law of Audit provide that the Control Yuan shall set up a Ministry of Audit (National Audit Office) under it to exercise the power of audit over the financial activities of government agencies. Article 10 of the Law of Audit provides that the power of audit shall be exercised by auditors independently, free from any

interference. Article 60 of the Constitution, Article 28 of the Law of Final Statement, and Article 34 of the Law of Audit stipulate that the Control Yuan shall directly scrutinize the annual financial statement of the government, request the president to promulgate the finally audited government's annual financial report, and investigate and handle the dishonest financial cases reported by the National Audit Office. The following is a tabulation on dishonest financial cases reported by the National Audit Office to the Control Yuan:

L. Human rights protection

The protection of human rights is gaining more and more attention worldwide. It is an important barometer of the standard of a nation's democracy and legal system, and it has become a focal issue in the international community. The Human Rights Protection Committee (HRPC) of the Control Yuan was set up in May 2000 to work for protection of human rights in the Republic of China. The HRPC supports human rights and handles human rights cases without outside interference. The committee also collects information on human rights issues from domestic and international sources.

Moreover, the Control Yuan is empowered to press the government to correct deficiencies in its handling of human rights cases.

According to Article 4 of the Rules Governing the Establishment of Human Rights Protection Committee, the HRPC is composed of nine to eleven members of the Control Yuan, all of whom shall serve a term of one year headed by a convener appointed by the president of the Control Yuan. The functions and missions of the HRPC are listed as follows:

1. Discovering human rights violation cases and proposing to investigate;
2. Reviewing and studying human rights cases and offering suggestions;
3. Providing suggestions on human rights bills;
4. Communicating with domestic and international human rights institutions and collecting relevant information;

- 5. Researching how to promote human rights education;
- 6. Handling other matters related to human rights protection.

The HRPC often consults with domestic human rights organizations to better understand the human rights situation. It also keeps close relations with international organizations.

III. International Interactions

The International Ombudsman Institute (IOI), established in 1978, is a worldwide organization of ombudsman offices. It is incorporated as a non-government organization and its Secretariat lies in Edmonton, Canada.

The purpose of the IOI is to promote the concepts of ombudsman and human rights protection, and to encourage

their development throughout the world. Up to the present, there are 127 countries or regions participating in the IOI as its members.

The Control Yuan's successful accession to the International Ombudsman Institute made it a Voting Member (now called Institutional Member) of the IOI in August 1994. In December of the same year, in order to facilitate all international business effectively, the Control Yuan reached a resolution at the 24th Plenary Meeting of the second Control Yuan to prepare the establishment of an International Affairs Committee (IAC).

"The Provisions for Establishment of International Affairs Committee" was

approved at the 26th Meeting of Members of the second Control Yuan in January 1995.

The purpose is to strengthen exchanges and cooperation with international organizations, to actively participate in international activities and to raise our image in the international community.

According to Article 3 of the Provisions for

Establishment of International Affairs Committee, the IAC is composed of five members of the Control Yuan and the Secretary General, all of whom shall serve a term of one year and shall be appointed by the president of the

1. To propagate the ideas and achievements of the ombudsman system of the Control Yuan;
2. to support and participate in the study of ombudsman jurisdiction worldwide;
3. to participate in international training programs for the ombudsman or its staff members;
4. to search and collect relevant information and resources about international ombudsman organizations;
5. to exchange ombudsman experience and information in the international community; and
6. to support and participate in international conferences.

It has been eleven years since the establishment of the IAC. Each year members of the IAC participate actively in international and regional ombudsman conferences. Moreover, the IAC regularly invites distinguished guests from different countries that have made great contributions in this field to visit Taiwan so as to enhance bilateral communications with each other.

Up to now, the IAC has totally taken part in 19 international conferences and accomplished several circuit supervisions.

In addition, the Control Yuan has 16 successful cases regarding the invitation to honorable guests from different countries since 1999. International activities participated by members of the International Affairs

Committee during the year of 2006 are tabled below.

IV. Matters and Measures Taken Before the Inauguration of the 4th Control Yuan Members

Because the term of the 3rd Control Yuan members expired on January 31, 2005 and the 4th Control Yuan members have been vacant since February 1 of the same year, some duties and functions of the Control Yuan were not normally carried out during this period.

In order to maintain the constitutional system and protect civil rights of this country, the Control Yuan held an emergent meeting and made a decision on January 26, 2005 aiming at dealing with complaints from the people, violation of law and dereliction of duty by civil servants, assets report by public functionaries, and political donations. During the period from February 1, 2005 until the inauguration of the 4th Control Yuan president, vice president and members, the Control Yuan reinforces much on-the-job training to increase staffs' capabilities. Besides, those affairs that could be conducted before the inauguration of the 4th Control Yuan members would be dealt with. The Yuan also makes appropriate management for the work related to exercising the control powers.

The measures taken before the inauguration of the 4th Control Yuan members can be classified into 4 parts. A brief working report from February 1, 2005 to December 31, 2006 is as follows:

1. On-the-job training: Personnel training is essential to exercising control powers and conducting investigations. By acquiring knowledge and competence, staffs could do their job more effectively. Therefore,

during this period, the Yuan has invited professional speakers to teach the staff in different areas with a total of 115 academic and practical courses to promote capacity and performance of the Control Yuan staffs.¹

2. Dealing with affairs in the work plan that could be managed before the inauguration of the 4th Control Yuan members: There are 135 matters, not involved in any decision by Control Yuan members, proposed by different departments of the Control Yuan to carry out. Working reports of these affairs would be submitted for the Control Yuan members after their inauguration.
3. Appropriate management for the work related to exercising control powers: According to the Act, Control Yuan members themselves shall deal with those affairs related to making decisions. However, to meet the practical need before the inauguration, for example, political contributions and people's complaints, different units of the Yuan proposed 109 measures as an expedient way to cope with related affairs. As long as the Control Yuan members are inaugurated and approved, the follow-up work will be continued.
4. Promotion for the Control powers: In order to enhance the promotion for the Control powers, build up the public understanding of our Control system, and combine them with circuit supervision, the

Control Yuan requests all cities and counties to arrange lectures on the exercise of the Control powers in their institutions, schools, town halls, and community colleges, etc. In 2006, the Yuan gave 17 lectures in different areas.

V. Statistics and Analyses on Exercise of Control Powers of the 3rd Control Yuan Members

The Control Yuan, which has several functions and powers, is the highest control organization of the state. In modern time when democracy, rule of law, and human rights are getting increasing attention from the international community, it is widely concerned if there is a sound operating system in our nation, if the working facilities in the institutes are legitimate, and if public functionaries are malfeasant. The Control Yuan is just the organization to independently exercise its powers, to ensure the quality of public administration, to set up an appropriate channel for people's complaints, and to protect human rights.

Since the operation system has transformed from 1993, the Control Yuan was active, positive, and forward-looking in action for maintaining citizens' rights, building up an incorruptible and competent government, and increasing benefits to the nation. In order to better understand the Control Yuan's powers, some important statistics and analyses on exercise of Control powers of the 3rd Control Yuan Members are provided below.

A. Acceptance of people's petitions

In terms of case numbers of the received petitions, the item of Internal Affairs comes first (35.1%), among which the Construction Administration ranks first (9.2%). The second most received item is Judicial Affairs (22.4%).

Followed by the Finance and Economics (14.4%). These three items together accounted for 72%.

G. Audit

Some public functionaries were malfeasant in finance, undutiful, or inefficient, so the National Audit Office proposed 940 cases to the Control Yuan from January 1999 to January 2005. Among these cases, 130 were investigated; 43 were forwarded to other organs to investigate; 31 were merged; 676 were kept for reference; 8 were put on file; 52 were classified as others.

VI. Conclusion

Because the term of the 3rd Control Yuan members expired on January 31, 2005 and the 4th Control Yuan members have been vacant since February 1 of the same year, some duties and functions were not normally carried out during this period. However, we still increase on-the-job training to enhance staffs' capabilities, deal with affairs in the work plan that can be managed before the inauguration of the 4th Control Yuan members, and make appropriate plans for the work related to control power exercising.

From January to December 2006, the Control Yuan has received 5,785 complaint cases. In 2006, the Control Yuan made deep investigations into cases such as the integration of eldercare resources and the buildup of elder protection system; the procurement corruption of Taipower substation construction; the related vehicle examination system and the management of travel quality and travel agencies after the tour bus the Mainland tour group took when visiting Taiwan bumped into the mountain and rolled over; the suspected noxious waste and soil in the water gathering zone of the Shihmen Reservoir, which do damage to the waterhead. These will be the reference for the 4th members exercising their powers after their inauguration.

Some doubts about the Control Yuan's functions and performances have emerged recently, which means that some people of our society don't sufficiently understand the Control Yuan's roles and functions, and also reveals that we have huge working space to promote our work. As a

result, we set up the Control Yuan Exhibition Area, encouraging the public, institutions and groups, and schools to make a visit. In addition, during the period of the 4th members vacancy, the Control Yuan assigns staffs to counties (cities), institutions, town halls, schools, and community colleges to promote our functions and powers so as to reinforce people's understanding of control powers.

In view of some significant corruptions happening in today's political, economic, and social environment, if the Control Yuan members can investigate malfeasance in time and correct and impeach the illegitimacy, the control powers will be fully exercised to protect people's rights. We deeply expect that the Legislative Yuan could confirm the appointments of the Control Yuan members as soon as possible to maintain the Constitution order, to ensure political stability, to normally exercise the Control Yuan's powers, and finally to stand up for people's utmost benefits.
